

## CLAIMS

### Claim 1 (Amended)

Sub B' 7 1. (Amended) A holder adapted to support a stringed bow in a generally horizontal position outwardly from a hunter's body at a position below the hunter's waist comprising:

A2 an adjustable support member;

an adjustable spacing member combined with the support member and extending generally inwardly and upwardly therefrom;

an engagement member combined with said spacing member and being disposed generally above and inward from the support member .

### Claim 23 (Added)

Sub B' 1 23. A holder adapted to support a stringed bow in a generally horizontal position outwardly from a hunters body at a position below the hunter's waist comprising:

a support member;

B3 a spacing member combined with the support member and extending generally inwardly and upwardly therefrom;

an engagement member combined with said spacing member and being disposed generally above and inward from the support member;

the support member comprising an inward section and an outward section, said sections forming an upwardly concave surface.

**Claim 24 (Added)**

24. The holder of Claim 23 wherein:  
the upwardly concave surface is rounded.

**Claim 25 (Added)**

25. The holder of Claim 23 wherein:  
the support member further comprises a bottom side connected to the inward  
section and the outward section and extending therebetween.

**Claim 26 (Added)**

26. The holder of Claim 23 wherein:  
the support member inward section is adjustable.

**Claim 27 (Added)**

27. The holder of Claim 23 wherein the spacing member comprises:  
a reinforcement body.
